

Non-solvent concentrate

DESCRIPTION

Premium quality pre-prep concentrate to kill moss, mould, lichen on various surfaces

COLOUR

Yellowish

ADVANTAGES

Kills spores to help stop future growth of moss, mould, lichen etc.
Much easier to water blast and can be used at low pressure to minimise damage to the surface
Leaves substrate very smooth
Easy to use
No chemical reaction
No mineral solvents
Environment/worker friendly
No toxic fumes

APPLICATION

Dilute 1:10 and spray on roof. Leave it for 3 to 4 days to kill moss, mould, lichen etc. and then water blast

SAFETY

Wear neoprene gloves, rinse well after use

TRANSPORTATION

Not classified as a dangerous good, safe to transport by land, sea or air using standard best practice precautions

TECHNICAL DATA

Pack Size	5, 10 ltrs
No. of components	1
Shelf Life	1 year
Application Temperature	5°C - 50°C
Toxicity	Nil
Fire Hazard	None
Storage	Undercover in cool and dry conditions. Do not allow to freeze
