

Non-solvent concentrate

DESCRIPTION

Premium quality concrete tile treatment concentrate to kill moss, mould, and lichen on roofs

COLOUR

Colourless to faint yellowish liquid

ADVANTAGES

Kills spores to help stop future growth of moss, mould, lichen etc
Much easier to waterblast and can be used at low pressure to minimise damage to the surface
Easy to use
No chemical reaction
No mineral solvents
Environment/worker friendly
No toxic fumes

APPLICATION

Dilute 1:10 and spray on roof. Leave it for 3 to 4 days to kill moss, mould, lichen etc. and then waterblast the roof

SAFETY

Wear neoprene gloves, rinse well after use

TRANSPORTATION

Not classified as a dangerous good, safe to transport by land, sea or air using standard best practice precautions

TECHNICAL DATA

Pack Size	5, 10 ltrs
No. of components	1
Shelf Life	1 year
Application Temperature	5°C - 50°C
Toxicity	Nil
Fire Hazard	None
Storage	Undercover in cool and dry conditions. Do not allow to freeze
